

PCMH high-priority beneficiary (HPB) selection for Arkansas Medicaid is due Thursday, April 30

The deadline for your 10% PCMH high-priority beneficiary (HPB) selection for the 2020 Performance Period is Thursday, April 30.

If you choose, you can select five beneficiaries in addition to your 10% HPB selection. This allows you to choose beneficiaries who were added to your caseload after the attribution was loaded to AHIN. Your April PHM report will provide you with the most up-to-date beneficiary attribution to assist with your additional selection. Please reach out to your [AFMC Provider Relation's outreach specialist](#) with the beneficiary information for your five additional beneficiaries, as you will **not** select these through AHIN.

Please see the [Arkansas Payment Initiative website](#) to review the Arkansas Medicaid PCMH manual and addendum, or contact PCMH@afmc.org for additional questions.
