

## Keeping You Informed

We are happy to inform you that the EPSDT billing issue causing your claims to deny for “invalid diagnosis for wellness” has been resolved. A request for a mass adjustment to correct the claims that were denied in error has been made. At this time, we do not have a timeline for when that adjustment will be complete. If you choose not to wait on the mass adjustment, you can refile your denied claims.

If you have any questions, please reach out to your [AFMC Provider Relations outreach specialist](#).

Sincerely,
