

## Episodes of Care Announcement

### **AHIN Provider Portal to be Discontinued December 31, 2020**

Because Episodes of Care are being transitioned to “informational” reports thereby ending the financial incentive program, self-reported quality measures through the AHIN provider portal will no longer be required. *The ability to report quality measures only for reconciliation reports published during state fiscal year 2020, will still be accepted until December 11, 2020.*

AHIN will no longer be available for Episodes of Care after December 31, 2020.

### **New Document Retrieval System Now Available on the Medicaid Provider Portal**

All reports, including any supporting spreadsheets, are being published on the *HCI – Document Retrieval System* through the *File Exchange* option on the Medicaid Provider Portal. This is an easy to use and convenient method to access published reports.

An MMIS “Job-Aid” for using the *HCI – Document Retrieval System* can be found [at this link](#).

For more information please contact the Provider Assistance Center, APII Help Desk, at 501.301.8311 or 866.322.4696, or your [AFMC Provider Relations outreach specialist](#).

Sincerely,

**AFMC Provider Relations**
