

Many federal resources are available to families!

We need your help messaging families about available pandemic assistance. Federal programs like the American Rescue Plan have created many resources to help families. These include things such as rental assistance and extra time to enroll in Marketplace health insurance. Here are some tools to help spread the word:

- A flyer was created in [English](#) and [Spanish](#) outlining available support for families.
- You can tell people about the Arkansas Rent Relief Program using this Arkansas DHS [toolkit](#) for community partners and DHS [Arkansas Rent Relief Program Toolkit Graphics](#).
- If families have questions about the advance Child Tax Credit payments, Moms Rising/Mamás con Poder has created this [social media toolkit](#) with messages in English and Spanish that you can share. The IRS has also created [a toolkit](#) for partners with shareable messages starting on page 20. Tip: if the images from the toolkits are blurry, go to the Moms Rising/Mamás con Poder or IRS social media pages and download the images from there (or just reshare their posts). Moms Rising also created this helpful [Q and A page](#).

Thank you for your help and all you do for Arkansas families!

Sincerely,

AFMC Provider Relations
