

In accordance with the Arkansas Medicaid PCMH Addendum, practices must complete and document the PCMH activities. During our onsite visit, please ensure that you have all needed documentation to support each of the PCMH **13** month activities. The PCMH QA team will review and scan all supporting documenting for each of the Activities listed below.

To assist you in preparing for PCMH QA validation a check list of items to have prepared for your visit is identified below.

	ACTIVITY:
	<p>Activity P: Report clinical quality measure data for calendar year 2016 for:</p> <ul style="list-style-type: none"> • Controlling High Blood Pressure • Diabetes: Hemoglobin A1c Poor Control • Wight Assessment for Children and Adolescents (BMI) <p>Activity P: Provide information regarding the ability to produce a report indicating a numerator and denominator by using a standard report, by modifying or customizing a report, by combining one or more reports in the practice’s EHR system.</p> <p>Activity P: Indicate if there is the ability to change the CQM reporting timeframe within the practice’s EHR.</p> <p>Activity P: Provide a description of the process used for computing the numerator and dominator if any of these methods cannot be used to produce a report.</p>
