Jan Bartlett, Policy Director
Justin Villines, HIT Policy Integrator
Deborah Lombas, SHARE Onboarding

Arkansas Office of Health Information Technology
PRESENTATION AGENDA

1. Overview of SHARE
2. How SHARE can help PCMH Clinics
3. Provider and Vendor Status
4. Getting started with SHARE
WHAT IS SHARE?

• Statewide health information exchange (HIE)
• Established with Act 891 of 2011, governed by HIE Council
• Funded with public funds and user fees
• Infrastructure for providers, labs, pharmacies, public health, others to share clinical data
• Available to any health care entity willing to follow requirements and pay user fees
1. Secure Messaging
   - Secure, encrypted email exchange

2. Virtual Health Record (VHR)
   - View patient health data in SHARE securely online
   - No EMR/EHR needed
   - Clinical In box for qualified medical professionals

3. Health Information Exchange (HIE)
   - Integrates with your EMR/EHR system
   - Send and receive patient health data
   - View SHARE patient health data online or in EMR/EHR
HIE CREATES EFFICIENCIES

Without SHARE

With SHARE

SHARE
State Health Alliance for Records Exchange
WHAT DATA CAN BE SHARED?

HL-7 Messages, CCDs and Unstructured Documents

• Clinical Care Summaries
• Discharge Summaries
• Lab Results
• Radiology Reports
• Medication Histories

• Allergies
• CCDs
• Problem Lists / Diagnoses
• Referrals
• Transcribed Documents
**BENEFITS OF USING SHARE**

**Save time • Save money • Improve patient care**

- Instantly view patient health data from all points of care
- Make better-informed care decisions
- Easily coordinate care with unaffiliated providers
- Reduce administrative costs for gathering health data
- Track acute care events for your patients
SHARE seeks to facilitate meeting collection and data reporting goals for local and national health improvement activities

- Meaningful Use (MU)
- Patient Centered Medical/Health Home (PCMH)
- Accountable Care Organizations (ACOs)
- Quality Reporting/Monitoring & Measuring Outcomes
SHARE is a tool for facilitating transitions of care:

- **Care Coordination and PCMH**
  - Alerts transmitted through SHARE between providers and hospitals
  - Transmission of ED/Inpatient admits and discharge data
MEANINGFUL USE CRITERIA

Stage 1

• Stage 1, Menu Measure 9: Capability to submit electronic data to immunization registries or immunization information systems

Stage 2

• Stage 2, Core Objective 15: Provide a summary care record for each transition of care or referral where the recipient receives the summary of care record via exchange

• Stage 2, Core Objective 16: Capability to submit electronic data to immunization registries
WHAT’S IN IT FOR PCMH’S?
PCMH practices are required to participate in SHARE:

- Obtain patient discharge data from affiliated hospitals
- EMR integration is not required until 2015
- OHIT is working with AFMC, AAP, and Qualis to ensure practices are properly connected to SHARE for PCMH compliance
- Secure Messaging HISP to HISP
Arkansas Medicaid’s PCMH initiative requires providers join SHARE to receive inpatient discharge and transfer information. These “event notifications” will alert the practice of ED and hospital admissions, enhancing coordination of care for follow-up visits and reducing the cost of care.*

*See Arkansas Medicaid PCMH Handbook, 240.000 – Metrics & Accountability for Incentive Payments, Measure J.
When a Patient whose providers are connected to SHARE is admitted to or discharged from the hospital:

Participating SHARE providers receive an instant notification of the patient’s hospital status in the EMR inbox or SHARE’s VHR inbox.

This allows timely follow up and care management.
SHARE SECURE MESSAGING

System with expanded features

- Cloud-based
- Web-based user interface
- Functions like traditional email
- Facilitates HISP services

- Provides notifications to 3rd party email systems
- Alerts when a message is successfully or unsuccessfully processed/sent
Automate Immunizations Reporting through SHARE:

- SHARE has built an interface with ADH
- Send immunizations data directly to ADH through SHARE
- Simplify workflow by reducing duplicate data entry
- Immunizations Registry is “Live”
- ELR and Syndromic Surveillance are “Live”
- No additional cost to SHARE participants
WHO SHARES?

266

Health care sites participate, including 26 hospitals with (13) Live and 240 practices in 94 cities.

*As September 8, 2014
CONNECTED PARTICIPANTS NOW INCLUDE

**HOSPITALS**
- NARMC
- AR Children’s Hospital
- UAMS
- JRMC
- Ashley County
- McGehee Hospital
- Bradley County
- White River Health System
- Ark Methodist Medical Center
- Stone County Medical Center
- Conway Regional
- Howard Memorial

**PRACTICES**
- Family Medicine Clinic
- Family Doctors Clinic
- Claude Parrish CHC
- Main Street Medical
- Marshall Family Practice
- Ronald Reese, M.D.
- Newton County Family Practice
- Andrew Coble – General & Specialty Surgeon
- Internal Medicine Diagnostics, Inc.
- UAMS Regional Center – Pine Bluff; Fort Smith
- Boston Mountain Rural Health Center (7 sites)
- East Ark Health Center (5 sites)
- Jefferson Comprehensive Care (6 sites)
- Lee County Cooperative Clinic (4 sites)
- Willow Street Health
- NEA Baptist (37 sites)
- Fonticiella Medical Center

- Mid-South Health Systems

- Plus many more...
More than 809,205 patients participate in SHARE.
SHARE is helping the provider community by:

- Negotiating statewide contracts with EHR vendors THAT:
  1. Reduce or waive one-time vendor interface fees to connect to SHARE
  2. Shorten the implementation timeline
