

Provider Relations Outreach Specialist

Electronic Funds Transfer – ACTION Required NOW!

All providers have been notified that Arkansas Medicaid will no longer produce and mail paper checks. Providers must now utilize electronic fund transfer (EFT), which allows your Medicaid payments to be directly deposited into your bank account. If you already receive your Medicaid payments by EFT, then no further action is required.

If you **DO NOT** receive EFT payments for Medicaid services you provide, **you must take action NOW to ensure that you continue to receive Medicaid payments.**

- Complete the [Electronic Fund \(EFT\) Authorization for Automatic Deposit](#), located in Section V of your provider manual.
- Return the completed EFT authorization form along with a voided check or letter from your bank reflecting the bank's ABA number and your account number **before February 28, 2018** to
Medicaid Provider Enrollment Unit
DXC Technology
P.O. Box 8105
Little Rock, AR 72203-8105

If you do not take action by February 28, 2018, your provider number will be suspended until the EFT information is received.
