PCMH Deadlines – 2017 Performance Period

243,000 Quality Metrics Tracked for Shared Savings Incentive Payments and Targets for the 2017 Performance Period

DMS assesses the following quality metrics tracked for shared savings incentive payments according to the targets below. The quality metrics are assessed only if the shared savings entity has at least the minimum number of attributed beneficiaries in the category described for the majority of the performance period. To receive a shared savings incentive payment, the shared savings entity must meet at least two-thirds of the quality metrics on which the entity is assessed.

The Quality Metrics are assessed at the level of shared savings entity except for the default pool, where Quality Metrics are assessed on an individual PCMH level. Claims-based 2017 Quality Metric targets are set at a level no higher than the average performance of the shared savings entities in 2015.

Achievement of targets for Quality Metrics 14, 15, 16 and 17 can be calculated only if the required metric data is submitted through the AHIN Provider Portal. Failure to provide the required data by January 31, 2018 will cause failure to meet targets for Quality Metrics 14, 15, 16 and 17.
